1.1 : HTML (**H**yper **T**ext **M**arkup **L**anguage)

What is HTML

- HTML stands for Hyper Text Markup Language
- HTML is the standard markup language for creating Web pages
- HTML describes the structure of a Web page
- HTML consists of a series of elements
- HTML elements tell the browser how to display the content
- HTML elements label pieces of content such as "this is a heading", "this is a paragraph", "this is a link", etc.

1.2 : CSS (**C**ascading **S**tyl **S**heet)

What is CSS?

- CSS stands for Cascading Style Sheets.
- CSS describes how HTML elements are to be displayed on screen, paper, or in other media.
- CSS saves a lot of work. It can control the layout of multiple web pages all at once.
- External stylesheets are stored in CSS files.

1.3 : JS (Java Script)

What is JavaScript ?

- JavaScript is a lightweight, cross-platform, single-threaded, and interpreted compiled programming language.
- It is also known as the scripting language for webpages. It is well-known for the development of web pages, and many non-browser environments also use it.
- JavaScript is a weakly typed language (dynamically typed). JavaScript can be used for Client-side developments as well as Server-side developments.
- JavaScript is both an imperative and declarative type of language.
- JavaScript contains a standard library of objects, like Array, Date, and Math, and a core set of language elements like operators, control structures, and statements.

1.4 : BOOTSTRAPS

What is bootstrap?

- Grid System: Construct layouts with ease using a flexible grid system that adapts seamlessly to various screen sizes.
-
- Forms: Craft user-friendly forms with a variety of styles and functionalities like validation.
-

- Buttons: Spice up your website with customizable buttons in all shapes and sizes.

OUTPUT :-

CONCLUSION

Conclusion:

During my internship at STEM Valley, I gained a valuable understanding of the marketing industry and its effectiveness. I particularly enjoyed collaborating with the STEM Valley IT team. However, I recognize that I still have much to learn about the practical aspects of Information Technology, and I need to improve my public speaking skills.

Overall, my summer internship experience was positive. I am confident that the skills I acquired will be beneficial in my future career.

Feel free to adjust any part of this as needed!
